

UVACUBE 2000:

Image source: <https://www.hoenle.com/products/uv-equipment-uv-systems-uv-units/uvacube-led-cube/uvacube-100-und-2000>

The UVACUBE 2000 is an easy to operate UV-curing chamber for curing of adhesives, inks, coatings, and UV-driven reactions. Additional reflectors in the chamber provide the uniform irradiation intensity with ca. 10% gradient throughout the volume.

Specifications:

- Chamber size: 450 x 400 x 300 mm (HxWxD)
- Power control: (50 % / 100 %), up to 2000 W
- Timing range: 1 minute to 9 hours 59 minutes
- UV-LED Spectra: in 250-500 nm range.
